EXPERIENCE

Healthcare Services Group, Inc.

May 2023 - Jun 2026

District Manager | Massachusetts (Hybrid)

Served as the operating bridge among facility administrators, corporate leadership, residents, families, vendors, and frontline teams across eight client locations - translating expectations into routines managers could sustain.

- Grew the district from five facilities to eight in the first year by stabilizing newly awarded, at-risk accounts and rebuilding client confidence.
- Took emergency ownership of a struggling portfolio left understaffed by a departing manager, restabilizing staffing, service, and client relationships while keeping other accounts moving.
- Managed ownership transitions in union facilities, stemmed hour reductions where possible, de-escalated grievances through staffing reductions, and re-engaged demoralized teams.
- Supported client adoption of MealTracker across all eight facilities by training each director directly, reinforcing workflows after go-live, and treating errors as signals for where enablement needed to improve.
- Led service recovery through two regulatory kitchen shutdowns, maintaining meal continuity while communicating clearly through corrective action and reopening.
- Sustained better than 90% deficiency-free outcomes across roughly 32 state surveys over three years, reinforcing client confidence with consistent follow-through rather than one-time fixes.
