District Manager | Massachusetts (Hybrid)

Directed an eight-facility skilled-nursing and rehabilitation district: roughly 850 residents, 100+ employees, and a \$5M+ operating budget.

- Expanded district responsibility from five facilities to eight in the first year by stabilizing newly awarded accounts and establishing repeatable operating controls.
- Balanced census, labor, purchasing, PPD, sanitation, service quality, union dynamics, and leadership performance across eight very different facilities.
- Sustained better than 90% deficiency-free outcomes across roughly 32 state surveys over three years by converting recurring findings into audit tools, corrective routines, and manager accountability.
- Reopened two kitchens closed by state and federal inspectors by implementing temporary service models, retraining facility teams, and maintaining resident meal continuity through recovery.
- Navigated union accounts through ownership transitions, staffing reductions, grievances, and morale recovery without losing day-to-day service control.
- Built a durable leadership bench: promoted five cooks to Food Service Director, trained four managers from outside healthcare to deficiency-free first-year surveys, and advanced one director to District Manager.
